

FAA Safety Team presents:

A Good Look Inside a NOAA Weather Brief

Seminar Details: 9:50 AM Classroom B - Getting the Most From a NOAA Weather Briefing, presented by David Lackey, Designated Pilot Examiner and former Airline Pilot. Most pilots are not aware of how useful a tool the NOAA web site can be when planning a flight. In this information-packed seminar David Lackey will guide you through all the available weather data NOAA offers, describe what it is telling you, and show you how to use it. This seminar will give you another valuable weather source to add to your "wheel house" of preflight preparations. Make your next flight safer for you, your family, and friends.

Directions: Seminars will be held in the NEW GTCC AV3 Campus across from HondaJet on Old Stage Coach Road. See Map connection. Look for seminar signs. Transportation for "Fly-Ins" can be arranged if you make 24 hour advance requests by calling Bob Sutherlin at 336-907-0487. Landmark ramp fee may be waived. Call for details.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.
Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
